## Preschool Age Participants

Preschool-age students (ages 4 - 5) enrolled in our YMCA programs, may be paired with our Kindergarten groups. In accordance with THHS Childcare Licensing SAP/BAP Minimum Standard 744.2003, the YMCA of Metropolitan Dallas sites serving children under 5 years of age, will operate in the following manner:

- Children under 5 years of age will play on playground equipment suitable to their age group. They will participate in program activities in a separate space as an independent group. All YMCA participants will not mix with other programs or persons outside of the YMCA at any time. If another group is playing on the same grounds, the YMCA will move to an isolated area. If another group is using common restroom facilities, we will either ask them to wait until the YMCA group is finished, or the YMCA will wait until the bathroom is clear of non-YMCA participants.
- For programs that operate with children under 5 years of age, the curriculum will be implemented or adapted to meet the interests and abilities of the age group. Ratios will be 1:10. Staff will be trained in working with children 4-5 years old.
- On select occasions, children under the age of 5 will mix with the larger groups during check-in time, snack time, and in some cases, outdoor time and during check-out time.
- All program participants of all ages must be able to use the restroom independently.

# Medical and Emergency Procedures (Continued)

## Staff Health Practices

- **Immunizations and Training:** While not all adult immunizations are verified unless required by law, all staff must complete First Aid, CPR, and Bloodborne Pathogens training.
- **Illness Policy:** Staff must adhere to the same illness exclusions as program participants, avoiding work during communicable diseases or when showing symptoms of illness.
- **Handling Illness and Lice:** Protective equipment must be used for treating injuries. Children treated for lice must be free of nits post-treatment and will be checked upon return to the program.

## Administration of Medication

- **Medication Policies:** Medication is accepted on-site on a case-by-case basis, following completion of a YMCA Medication Form available from the Site Director or central office.
- **Requirements for Medication:** All medication must be prescribed by a physician, kept in its original container, and clearly labeled with the child's name, dosage, and administration instructions.
- **Labeling:** Medication must have a readable original prescription label showing the medication name, strength, expiration date, child's full name, healthcare provider, pharmacy contact, dosage, and storage instructions.
- **Authorization:** All medications, including over-the-counter, require a physician's note and must be accompanied by a completed medication form signed by the primary parent.
- **Documentation:** A written authorization from the child's parent/legal guardian is necessary, including:
  - Child's name and medication name.
  - Permission date and duration the medication is needed.
  - Specific times for administration.
  - Parent or guardian's signature.
- **Original Container:** Medications must be provided in their original packaging with clear dosage and direction details.

## Treatment Plans

- **Special Requirements:** Treatments like breathing treatments or diabetes monitoring need prior approval from our administration along with physician-written plans.
- **Non-Administrable Treatments:** Our staff does not administer injections or treatments that involve physical contact or insertion into body cavities.
- **Communication and Approval:** For children requiring special medication or treatments, parents should contact the Regional Executive Director to discuss needs and obtain appropriate approvals.
- **Allergy and Emergency Medication:** Severe or life-threatening allergies requiring emergency medication must be disclosed on the enrollment form. An administrator might reach out for further details or to arrange a meeting for discussing participation accommodations.

## Emergency Preparedness Plan

Each afterschool site has a specific emergency plan that includes regular weather drills and precautions for severe conditions. These plans are available for review at the site.

## Routine Safety Drills

- **Fire Drills:** Conducted monthly during afterschool and weekly during summer camp programs at varying times to ensure preparedness.
- **Severe Weather and Lockdown Drills:** These are conducted quarterly to rehearse emergency procedures effectively.
- **Protocol During Drills:** Parents arriving during drills are required to wait until the drills are complete before picking up children to maintain the integrity of the exercises.

## Children with Specialized Needs

The YMCA aims to accommodate all children. However, our programs may not be suitable for everyone and do not provide therapeutic or one-on-one care. Admissions are not guaranteed by registration alone, and we adhere to the Americans with Disabilities Act. If a child requires a Licensed Therapist or other Health Professional, they must be checked out by an authorized adult, and we will try to provide a safe space as per our capacity.

**These guidelines are designed to maintain a safe and healthy environment for all children and staff at the YMCA of Metropolitan Dallas.**

# The Y's Position on Child Abuse

## **We make an active effort to prevent Child Abuse.**

- Parents have the right to discipline their children, however, parents must refrain from using physical or corporal punishment while on YMCA property, school grounds, or programs space.
- For the safety of the children entrusted in our care, the YMCA conducts and requires a background check and references for all staff, every person employed in or by our branches and programs.
- Allegations or suspicions of child abuse are taken seriously and are reported to the police and state agencies for investigation.
- Programs are structured and observed so that staff and volunteers are never the only adults present with children with the possible exception of emergency conditions.
- Periodic interviews/evaluations are conducted with children and parents regarding day-to-day experiences, encouraging reports of any event out of the ordinary.
- Staff are required to report all incidents and/or the disclosure of abuse.

## **Child Abuse Information**

We take proactive steps in the prevention of child abuse including thorough staff/volunteer screening, child abuse prevention training, and staff/volunteer rules aimed at protecting children from abuse. As a parent, you can help ensure the safety of your child by working with us to keep your child safe. Here are some things you can do:

- Talk to your child about his or her experiences. Trust your instincts.
- Don't wait to tell us if something seems "strange".
- Speak up! Listen and watch for signs of your child receiving special attention that other children or teens are not receiving, including favors, treats, gifts, rides, increasing affection, or time alone, particularly outside the activities of the school, child care, and other activities.

The YMCA of Metropolitan Dallas regards accusations of child abuse very seriously and reports all suspected child abuse, neglect, and exploitation to CPS. Reports of abuse and neglect can be made to the THHS hotline at 1-800-252-5400 or [www.txabusehotline.org](http://www.txabusehotline.org). If you have concerns about how your child is being treated in any YMCA-sponsored program, please contact your Program Director.
